DETAILED ACTION

1. This action is responsive to communications filed on: 29 March 2007 and telephone conversations on 18 July, 9 July, and 5-6 July 2007 with acknowledgement of an original application filed 12 September 2002, with continuing data from PCT/US00/27352 filed 4 October 2000, with a provisional application filed 5 October 1999.
2. Claims 16-30 and 70-75 are currently pending. Claims 16 and 70 are independent claims.
3. In the telephone conversations from 5 July to 18 July 2007 Examiner attempted to expedite the allowance of the application by an Examiner's Amendment that would cancel one group of claims and incorporate features into the other group. Attorney informed Examiner of 18 July 2007 that he was unable to authorize Examiner's Amendment.

Response to Arguments

4. In view of the appeal brief filed on 29 March 2007, PROSECUTION IS HEREBY REOPENED. New grounds of rejection are set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

- (1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,
- (2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

Art Unit: 2134

Applicant's arguments, in the filed pre-appeal request filed on 29 March 2007 with respect to claims 16-30 and 70-75 have been considered but are moot in view of the new ground(s) of rejection.

Election/Restrictions

5. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 16-30 are drawn to secure communications between a mobile device and home domain using a foreign domain, classified in class 380, subclass 248.

II. Claims 70-75 are drawn to a method of dynamically establishing security associations, classified in class 726, subclass 15.

6. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention (I) has separate utility such as a secure communication between mobile devices (II) has separate utility such as an dynamically establishing a security association. (See MPEP § 806.05(d)).

7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

8. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, the search required for Group II is not required for Group I, restrictions for examination purposes as indicated is proper.

Art Unit: 2134

9. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

10. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the -fee required under 37 CFR 1.17(i).

Conclusion

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ellen C Tran whose telephone number is (571) 272-3842. The examiner can normally be reached from 8:30 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kambiz Zand can be reached on (571) 272-3811. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
